

Past ACO-Related Events (Fall 1999-Summer 2000)

To have an upcoming seminar, lecture or other activity appear on these pages, send a full description and/or a www link to [Webmaster](#).

If you wish to receive regular e-mail announcements about ACO activities, you may subscribe to the [ACO mailing list](#).

Important: Please notice that this page is automatically generated, it may have not been reviewed by human eye. It is not a master information source about the advertised events, and it may contain errors. Please, follow the links provided for each of the events to obtain up-to-date information.

[\[Pre-Fall2000 Events\]](#)
[\[Past Events\]](#)
[\[Upcoming Events\]](#)
[\[Future Events\]](#)

- **August 7-11, 2000**
International Symposium on Mathematical Programming : *Hosted by Georgia Tech ISyE*
(Other Event)
- **August 11, 2000**
Ion Mandoiu, Dissertation Defense : *Approximation Algorithms for VLSI Routing*
(Other Event)
1:00 PM, College of Computing room 155
- **April 27th, 2000**
Brendan Nagle, Math, Georgia Tech : *Title: Monotone and Hereditary Properties of Set Systems*
-- >>
([Combinatorics Seminar](#))
Room : Skiles 255, Time: 12--1pm
- **April 18th, 2000**
Alberto Policriti, Univ. of Udine, Italy : *Title: Fast (Hyper) Set Equivalence*
([Combinatorics Seminar](#))
Room : Skiles 255, Time: 11-12
- **April 13th, 2000**
Brendan Nagle, Math, Georgia Tech : *Title: Monotone and Hereditary Properties of Set Systems*
([Combinatorics Seminar](#))
Room : Skiles 255, Time: 12--1pm
- **April 6th, 2000**
Penny Haxell, Math, Emory University, GA and University of >> : *Title: Ramsey-type partitioning problems*
([Combinatorics Seminar](#))
Room : Skiles 255, Time: 12--1pm
- **March 30th, 2000**
Chris Heckman, Math, Georgia Tech : *Title: Independent sets in bounded-degree graphs (thesis defense)*
([Combinatorics Seminar](#))
Room : Skiles 255Time: 11--1pm (Please note the time >>)
- **March 23rd, 2000**
Jozef Skokan, Math, Emory University : *Title: Equivalent conditions for regularity*
([Combinatorics Seminar](#))
Room : Skiles 255Time: 12--1
- **March 16, 2000 (Thursday)**
Miklos Ruszinko, Hungary Academy of Sciences and Carnegie Mellon >> : *Binary and Euclidean Superimposed Codes*
([ACO Colloquia](#))

4:30-5:30 PM, Skiles 269 (refreshments at 4:00)

- **March 2nd, 2000**
 Speaker: Hari Pulapaka, Math, Georgia Tech and Math, Valdosta >> : *Title: Revisiting some non-revisiting problems*
(Combinatorics Seminar)
 Room: Skiles 269, Time: 12-1pm
- **February 25, 2000**
 Jim Fill, Johns Hopkins University : *Perfect Sampling: A Tale of Two Algorithms*
(ACO Colloquia)
 4-5 PM, Skiles 269
- **February 24th, 2000**
 Jim Fill, Math, John Hopkins University : *Title: AN IN-DEPTH PROBABILISTIC ANALYSIS OF QUICKSORT*
(Combinatorics Seminar)
 Room : Skiles 269 (NOTE THE CHANGE!), Time: Thursday >>
- **February 17th, 2000**
 Peter Winkler, Bell Labs, Lucent Technologies Inc. : *Title: On Playing Golf With Two Balls*
(Combinatorics Seminar)
- **February 10th, 2000**
 Jeff Steif, Math, Georgia Tech. : *Title: Measures of maximal entropy for subshifts of finite >>*
(Combinatorics Seminar)
- **February 4, 2000**
 Robert D. MacPherson, Institute for Advanced Study : *Combinatorics of Polyhedra (Stelson Memorial Lecture Series)*
(Other Event)
- **February 3, 2000**
 Robert D. MacPherson, Institute for Advanced Study : *Spaces of Lattices (Stelson Memorial Lecture Series)*
(Other Event)
- **January 27th, 2000**
 Yoshiharu Kohayakawa, Math, University of Sao Paulo, Brazil. : *Title: The Size-Ramsey Number of Graphs of Bounded Degree*
(Combinatorics Seminar)
- **January 20th, 2000**
 Dhruv Mubayi, Math, Georgia Tech. : *Title: Some Exact Results and New Asymptotics for Hypergraph >>*
(Combinatorics Seminar)
- **November 18, 1999**
 Miklos Ruczinko : *TBA*
(Graph Theory Seminar)
- **November 11, 1999**
 Dan Klain, Math, GT : *A Helly-type theorem for matroids, vector spaces, and induced*
(Graph Theory Seminar)
- **November 4, 1999**
 Dana Randall, Math and CoC, GT : *TBA*
(Graph Theory Seminar)
- **October 28, 1999**
 Christian Houdre, Math, GT : *Mixed and isoperimetric estimates of the Log-Sobolev constants of*
(Graph Theory Seminar)
- **October 21, 1999**
 Brendan Nagle, SAAC, GT : *TBA*
(Graph Theory Seminar)
- **October 14, 1999**
 Tom Bohman, Carnegie-Mellon University : *TBA*

[\(Graph Theory Seminar\)](#)

- **October 7, 1999**

Ernest S. Croot, Math, UGA : *Solution to a Unit Fractions Coloring Conjecture*

[\(Graph Theory Seminar\)](#)

- **Thursday, September 30th, 1999**

Andrew Granville, University of Georgia, : *Residue Races*

[\(Combinatorics Seminar\)](#)

12:00PM-1:00PM, Skiles 255

- **Thursday, September 23rd, 1999**

Mihai Ciucu, Math, GT : *A Generalization of MacMahon's Formula for Plane Partitions*

[\(Combinatorics Seminar\)](#)

12:00PM-1:00PM, Skiles 255

- **Friday, September 10, 1999**

Lubos Thoma, Carnegie Mellon : *How to get a cover graph*

(Other Event)

Emory University Department of Mathematics and Computer Science, 4:00pm, NDB 155

- **September 9th (THURSDAY), 1999**

Y. Kohayakawa, Sao Paulo, Brazil : *An extremal problem for random graphs*

[\(Combinatorics Seminar\)](#)

12PM (Noon), Skiles 255
